

Humanion Films  
For Immediate Release  
June 19th, 2009

#### EVENTS:

Representatives from Humanion Films will be in attendance of a special fund raiser held by [Madeleine and T. Boone Pickens](#) on June 29, 2009. This event will help to ensure compassionate and dedicated legislators like Dan Burton remain in office so they can fight on behalf of our horses and the American people. In support of the horses and Congressman Dan Burton, Humanion Films Executive Producer, Katia Louise will be attending together with Nancy Stanley, Public Relations and Associate Advisory Board Member of "Saving America's Horses". Also in attendance will be Wayne Pacelle, Chief Executive Officer of the Humane Society of the United States, and Chris Hyde, Deputy Legislative Director of the Animal Welfare Institute. Earlier this year Congressman Burton, along with House Judiciary Committee Chairman John Conyers (D-Mich.) introduced the bill known as the Conyers-Burton Prevention of Equine Cruelty Act, which will ban the slaughter of American horses and prevent their export to Mexico, Canada or Asia for the same purpose. "We hope that others are inspired to fully support this event on behalf of the horses" said Katia Louise.

#### PRODUCTION NEWS:

Humanion Films is in production on "Saving America's Horses". The feature documentary film follows the rich and full life story about a very proud and majestic horse while taking a focused look into the startling business of horse slaughter along the way. "The film's mission is to inspire a shift from the apathetic and disposable mindset of today's unassuming society toward active involvement for the protection of horses", states filmmaker, Katia Louise.

Humanion Films is pleased to welcome Vicki Tobin and Nancy Stanley as Associate Advisory Board Members on the film "Saving America's Horses".

Nancy Stanley is an Animal Therapy pioneer; Ms Stanley was the Founder, National Media and Public Relations Director of Tender Loving Zoo, a nonprofit organization that introduced "Animal Therapy" to severely handicapped children and to convalescent hospitals for the elderly. Nancy authored and published "Pillow With a Heartbeat", the heartwarming tale about a little dog, Truffles, who finds his big purpose. This book's mission is to continue Truffles' journey, bringing children of all nations together with Truffles as their "Pied Piper", particularly children who are battling life-threatening diseases. Nancy Stanley is presently a wish-grantor for the Make-A-Wish Foundation in San Diego. It was as a wish-grantor that Nancy was inspired by a very special child, to write "Pillow With a Heartbeat". She's worked and cared for a variety of animals as a Veterinary Assistant as well as at the Los Angeles Zoo caring for baby gorillas. Nancy also works to support the rescue and retirement of thoroughbred horses in a transition to Equine Assisted Activities programs.

Vicki Tobin is the vice president and Co-Founder of Equine Welfare Alliance. She writes articles and press releases centering on equine welfare, rescue and anti slaughter issues that have been circulated in industry publications, media and educational websites. Vicki Tobin is also a Co-Host of "Howling Ridge Radio", which features lively discussions on a variety of equine issues. Vicki's hands-on equine work revolves around slaughter research, press release research and rescuing horses. She absolutely adores her "boys" at Old Friends in Georgetown, KY where she visits every summer laden with treats for the retirees. Vicki Tobin works with charter members, individuals and organizations at EWA for the advancement of community support for equine welfare.
