

Date: _____

Dear Congressman (or Representative) _____,

I'd like to take this opportunity to thank you for co-sponsoring HR 503, the Conyers-Burton Prevention of Equine Cruelty Act.

As you know, this important piece of legislation will help end the horrific cruelty suffered by America's horses by prohibiting their slaughter in the U.S. for human consumption as well as their export for the same purpose. Horse slaughter is nothing but abject cruelty and as such, has no place in American culture.

I hope you will stand firm in your support for this legislation and urge other members of the Judiciary Committee to do the same. It's time that horse slaughter went the way of dog fighting, trafficking in illegal drugs, child labor, prostitution, and other sordid practices. It's time to step up and prevent further needless suffering by passing HR 503.

Thank you for your time and support.

Sincerely,
